Councilman Leifson attended the Utah League of Cities and Towns (ULCT) conference last week and learned a lot about what we should be doing. He feels there was great information presented at the conference.

PUBLIC HEARINGS:

Councilman Davis made a **Motion** to open the public hearings. Councilman Nielson **Seconded** and the motion **Passed** all in favor at 6:04 p.m.

49 **Parks and Recreation Master Plan**

50

51 Mr. Anderson introduced Jan Striefel with Landmark Design. He explained we have been
52 working with them on the Parks and Recreation Master Plan, the project has been in the works
53 for quite some time. In his opinion Landmark Design has done more Parks and Recreation
54 planning work than any other firm in Utah and they do excellent work. The Planning
55 Commission reviewed and unanimously recommended approval of this.

56

57 Ms. Striefel stated it has been a pleasure working with the community of Spanish Fork. She then
58 gave a presentation highlighting the information regarding the Parks and Recreation Master Plan.

59

60 Councilman Nielson asked if the survey said citizens are willing to pay more for a recreation
61 center.

62

63 Lana Creer Harris

64 Ms. Harris asked how many respondents there were to the survey.

65

66 Ms. Striefel said it was almost 20% which is outstanding for a community to respond with that
67 amount of responses.

68

69 Pat Parkinson

70 Ms. Parkinson feels this is a wonderful job that has been done and suggests one park be made
71 into an arboretum with trees and plants labeled so the public can know ideas for what people can
72 plant and kids can collect leaves.

73

74 Councilman Leifson has been involved in this study and stated there has been a lot of work done
75 on this project. He is pleased with the result so far. He also stated the trails map will be on the
76 website along with this presentation.

77

78 Mr. Robinson said the Parks and Recreation Master Plan is available on the website.

79

80 Ms. Parkinson said we talk a lot about maintaining the same level of service and using the impact
81 fees to do so. She feels the size of the program will be impossible to maintain and they will have
82 to look at setting limits on the amount that can participate.

83

84 Councilman Davis made a **Motion** to approve the Master Plan for Parks and Recreation
85 including the trail system as an element of the General Plan. Councilman Nielson **Seconded** and
86 the motion **Passed** all in favor.

87

88 **North East Bench General Plan Amendment**

89

90 Mr. Anderson clarified the request before the Council. The land use designation calls for 1.5 -
91 2.5 residential units to the acre. The proposal will change the designation to make the southern
92 most 12 acres of the property changed to general commercial and the remaining part will be
93 changed to 5.5 – 8 units per acre. It was discussed in some joint meetings with the Council and
94 Planning Commission last year that this area is an ideal area for annexation with the high school
95 and so on. He noted the actual number of units constructed in this area due to the capacity in the
96 sewer trunk line will be the factor. He added they have worked with the applicants of the

97 annexation knowing that the General Plan designations will not be the limit of the amount of
98 dwelling units constructed in this area it will be the sewer capacity that will limit the amount.
99

100 This item was opened for public comment.

101

102 Greg Magelbey

103 Mr. Maglebey works with LEI and explained they are not asking for more units they are just
104 wanting the ability to shuffle the units around to make this the best for both the city and the land
105 owners.

106

107 Duane Hutchings

108 Mr. Hutchings has eight property owners that make up the 250 acres for the total annexation;
109 plus a couple of the others around that are on board to cooperate with the LLC and the area for
110 the Master Plan. The change proposed tonight gives them some flexibility for the area without
111 changing the total allowable number of units.

112

113 Councilman Davis asked that the land owners are aware of the road and are on board to give up
114 the needed right of ways.

115

116 Mr. Magelbey said they are aware.

117

118 Ms. Parkinson feels this seems to be the cart before the horse, that the key players are not part of
119 the LLC. She does not understand why they are worried about changing the master plan for this
120 area before they know for sure if this will work in the annexation. She would rather they wait
121 until the annexation so they know what they are going to do, and even then she feels there is a
122 risk for things to get sold off. She feels they should get the whole picture rather than going on
123 hoping it will all work out and everyone will get along.

124

125 Mr. Hutchings clarified the property owner's point of view. The whole annexation is
126 approximately 350 acres and includes smaller properties that have no desire to develop. Mr.
127 Miner has joined as part of the master plan but the land owners understand the concept and what
128 they are after. The land owners are committing to all the issues needed so both the land owners
129 and the city have signed off on this. All owners in the LLC will cooperate and have signed
130 papers stating so. They cannot move forward without this passing tonight.

131

132 Councilman Davis asked what happens if one of the property owners do end up selling.

133

134 Mr. Magelbey stated that upon the annexation agreement their property will already be
135 designated so any owner would be subject to the same requirements regardless.

136

137 Councilman Nielson stated the proposal will be made to the city and the engineering firm will
138 show a plat that proposes the layout. Once that is approved they cannot change it without going
139 before the Council. They need each other to make this work and are willing to get together.

140

141 Mr. Baker explained the annexation agreement is what controls everything and carries a lot of
142 weight.

143

144 Councilman Davis feels they need the commercial in the area. He is struggling with the higher
145 density. He is worried about our Spanish Fork standards in the area and needs to make sure they
146 are done right. The only thing he can see is putting a condition that the rest of the northeast
147 bench understands they can't go past that 2.8 total capacity
148

149 Councilman Nielson made a **Motion** to approve the proposed Northeast Bench General Plan
150 Amendment for the Miner Property, changing the General Plan for the southernmost 12 acres of
151 the Miner property to General Commercial and the remaining 17.9 acres to Residential 5.5 to 8
152 units per acre. And also that the Hutchings property, 11 acres north of the Miner property, be
153 changed to residential 5.5 to 8 units per acre under the conditions that all the annexation
154 properties as a whole do not exceed 2.8 units per acre. Councilman Leifson **Seconded** and the
155 motion **Passed** all in favor.
156

157 Councilman Leifson made a **Motion** to close the Public Hearing. Councilman Davis **Seconded**
158 and the motion **Passed** all in favor at 7:25 p.m.
159

160 **CONSENT ITEMS:**

161

162 **Minutes of Spanish Fork City Council Meeting – March 25, 2008; April 1, 2008**

163

164 Councilman Nielson made a **Motion** to approve the consent items. Councilman Davis **Seconded**
165 and the motion **Passed** all in favor.
166

167 **NEW BUSINESS:**

168

169 **Resolution Proclaiming Arbor Day**

170

171 Mr. Robinson stated they would like to proclaim Arbor Day as April 25. They will be celebrating
172 at 10:00 a.m. at the Senior Center. The City will be receiving the Tree City USA award for the
173 ninth straight year. They do already have on 300 east Center some water conservation trees
174 people can look at and we have an urban forest.
175

176 Councilman Davis made a **Motion** to adopt resolution 08-07 proclaiming Arbor Day and to
177 authorize the Mayors signature. Councilman Leifson **Seconded** and the motion **Passed** all in
178 favor.
179

180 **Parks and Recreation Rate Changes – Dale Robinson**

181

182 Mr. Robinson reviewed the fee changes proposed.
183

184 Councilman Davis asked about the swimming pool regarding diapers.
185

186 Mr. Robinson stated the swim diapers will be available to purchase and are required to get into
187 the pool for children three years and under.
188

189 Discussion was made regarding costs to hire good umpires and coaches.
190

191 Councilman Nielson stated the quality of the umpires is important and they need to employ good
192 ones.

193

Re: Second Amendment to the Transformation Service Agreement

For the past several years SUVPS (Southern Utah Valley Power System) has been trying to work towards moving SWUA (Strawberry Water Users Association) out of the SUVPS system. Spanish Fork City is part of the SUVPS system, we as SUVPS staff felt it is best to have companies in the power supplying business as members.

In doing this SUVESD (Southern Utah Valley Electric Service District) which was part of SWUA at the time of there split was asked to purchase SWUA share of Rocky Mountains Spanish Fork substation. This has taken many years for SUVESD to accomplish but SWUA agreed to sale them a percentage of their share of transformation at the Rocky Mountain Substation.

This New Agreement is to let you know of the changes in ownership at the Rocky Mountain Substation. Spanish Fork's percentage stays the same as it was the only change is SWUA will own 4.9%, SUVESD will own 10.03 %, Springville 31.56 %, Salem 4.33 %, Payson 18.79 % Spanish Fork 30.29 %.The Water wanted to keep some of the ownership so they can have a path for there generation to go out on the power grid.

IF you have any questions please give me a call.

RE: Ordinance modification from Rick Salsbury

Rick Salsbury has requested that we modify our standards to allow building permits prior to the subdivision improvements being completed. We have modified the standards to where they are to eliminate some of the problems we encountered with home construction taking place at the same time as development improvements were being installed. Some of these problems are as follows:

1. Homes are built so fast sometimes that all the utilities were not to the home prior to the new home owner wanting occupancy. We had instances where the homeowner had sold their previous home and ready to move into the new one which had no power to the home yet.
2. We continually had battles between the home builder and the development contractor over who caused the damage to the sidewalk or road. Once we have completed the final walk through and signed off on the subdivision it is much easier to know who to require to repair the improvements that may have been damaged.
3. Another problem was who to require to keep the mud and dirt off the sidewalk and street. There was always a lot of finger pointing. If the developer is out of the picture it eliminates one potential party.

With Rick's situation it is a little different in that the home builder and the developer are the same. But will it always be the same in his development. Lots are sold all the time. Who knows who will actually be building on any given lot. There is also the problem of treating everyone the same and not having standards that are not consistent.

It is our recommendation that the standards remain as they are.
