## LOOSEN THE BELT... BECAUSE WE ARE GROWING

Since the early 1990's, Spanish Fork City has grown at a rate of about 300 new homes each year. For the past several years, Spanish Fork has grown at a healthy pace, but the growth has been slower than average. 229 new homes were built in Spanish Fork in 2015. The city's rate of growth will likely change in 2016. Several new residential developments are now under construction, and the city anticipates as many as 400 new homes constructed in Spanish Fork in 2016. The City's growth will largely occur in the area surrounding Maple Mountain High School, but additional development in the Leland area on the other side of town is anticipated as well.

If you have questions about development projects, please contact the Community Development Department at 801.804.4580.
