CUT BRIDGE RIBBON CUTTING

The City will be holding a ribbon cutting to celebrate the opening of the Cut Bridge located at the Center Street and US-6 intersection. This event will take place near the end of

RECREATIONAL FIRES

Recreational fires are allowed, but only under the conditions set out in the current International Fire Code (IFC) :

Fire pits include belowground pits, freestanding fireplaces, and portable devices intended to contain and control outdoor fires.

Belowground fire pits shall be at least four inches in depth and shall be surrounded on the outside, aboveground, by a non-combustible material such as steel, brick, or masonry. The fire pit cannot exceed three feet in diameter, nor may the fire pile exceed two feet in height.

Fire pits may be used in accordance with the manufacturers specifications and these regulations:

- Only natural firewood/commercial logs may be burned. Burning of lumber, pallets, scrap wood, tree trimmings, leaves, yard waste, paper, cardboard, garbage and similar items is not permitted.
- Belowground fire pits and freestanding fireplaces must be located at least 25 feet away from any structure or combustible material.
- Portable fire pits must be located at least 15 feet away from any structure or combustible material.

May. Please consider this your official invitation to join us for this occasion. The City will be sure to share the date, time and more details about this epic event via Facebook and spanishfork.org in the near future.

- Fires must be constantly attended and supervised until the fire has been completely extinguished.
- A portable fire extinguisher or other approved extinguishing equipment, (e.g. a garden hose, dirt, sand, or water barrel), must be readily available.
- Fires that produce objectionable or offensive smoke or odor are prohibited.
- Fires may not be burned between 11 pm and 7am
- Fires are prohibited when current conditions or local circumstances make fires hazardous.
- Conditions which could cause a fire to spread within 25 feet of a structure shall be eliminated prior to ignition of a recreational fire.

One common problem with recreational fires is the potential of unwanted smoke and odor. Sometimes the smoke can irritate neighbors or affect those with health problems. Let neighbors know why you are starting the fire beforehand. Also, if the smoke becomes a nuisance, and they let you know, it should be extinguished. The fire department will require the fire to be put out if they receive complaints about the smoke or odor.

If you have any questions, please feel free to call the City at (801) 804-4540
