Water Sprinklers

Spanish Fork City recommends that you turn off the water to your sprinkler system at the meter or stop-and-waste valve before the city pressurized irrigation (outdoor water) system is energized. See the how-to video on spanishfork.org/water. Once the outdoor water system is pressurized you can turn on the water and manually test each sprinkler zone. If you have a sprinkler-system filter, check to make sure it is clean. Please be sure to securely replace the lid to the box when you are done. To report a leaking or broken valve or handle, call (801) 804-4550 extension 3.

Thank you for all your efforts to make our community a great place to live. Here are some other ways we can avoid polluting our streams and groundwater.

- Keep household chemicals indoors.
- Do not dispose of harmful chemicals in the ground, gutters or drain boxes.
- Avoid flushing household chemicals down the sink or toilet.
- Sweep/blow fertilizer out of street gutters after fertilizing.
